

TROLLEYBUS

Authors	Sasha Kiselev	About	Trolleybus is a monospaced display sans with a naïve-brutal character. Its letterforms were inspired by the design features of trolleybuses and technical typography. One of the important features of Trolleybus is the clear and uniform rhythm within the typeface. Despite its characteristic features, Trolleybus can become a solution to a variety of artistic challenges.
Language regions	Western European languages and all Slavic cyrillic-based languages

Bolditalic is a team of like-minded people. We are united by our love for fonts, attention to detail and the desire to make relevant products. Our main principle is to work honestly and meaningfully. The fonts from our collection combine an understanding of history, local cultural characteristics and the spirit of today. Our collection comprises different genres, from text workhorse fonts to bizarre display typefaces. We don't just release the fonts and let them go. When you purchase a typeface from us, you also subscribe to its updates.
